## DETAILED ACTION

### *Reasons for allowance*

1. The following is a statement for the indication of allowable subject matter:
2. The closest prior art documents Tsuchiya et al (U.S. Patent Number 5,105,776) and Yung. (U.S. Publication Number 2003/0099121) fail to teach alone or in combination, **“an electronic means which senses and monitors a voltage of the energy accumulated in a first stage storage means and then activating a charge management electronics means when said voltage of said first stage storage exceeds a variable but preset voltage thereby efficiently charging a second stage energy storage means, and wherein said preset voltage conforms to a minimum threshold for activation of said second stage energy storage means and said charge management electronics means further controls the charging current to conform to a variable but predetermined battery chemistry requirement of said second stage energy storage means.”** as recited in independent claims 1 and 11. Claims 2-10 and 12-20 are dependent on claims 1 and 11 and allowable for the same reasons.
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
